May 2017

Dear Parent/Guardian,

As part of the routine immunisation programme, your daughter will be offered her HPV vaccination during the academic year 2017/2018. This vaccine is two doses which are given six months apart.

The consent form is being sent to all girls currently in Year 7 in preparation for the next academic year, this will enable us to process all completed forms over the summer holidays. We plan to administer the first dose on the 19th September 2017.

You will shortly receive a HPV consent form and leaflet for your daughter. We would be grateful if you could complete the form and return it to the school by Thursday 15th June.

If you would like any further information and support regarding HPV please contact your school nurse.

Yours sincerely,

Buckinghamshire School Immunisation Team
