RE: School Equipment

Dear Parent / Carer

One of the expectations we have for all our students at The Cottesloe School is that they come to school fully equipped to learn. While each subject may require some additional specialist resources, the vast majority of learning activities can be suitably tackled with a basic learning kit.

As we enter the Christmas and New Year period, this is an excellent opportunity to make sure your child is fully equipped for school.

Form tutors regularly check that students have a basic learning kit, so please could you ensure that as we begin the new term in January that your child has the following equipment:

Pens (including black for writing and red for completing 'fix it time' or responses to teacher feedback)
Pencils
Ruler
Sharpener
Glue stick
Highlighters
Calculator
Dictionary

Your support in this matter is greatly appreciated.

Yours sincerely

Mr S Jones
Deputy Headteacher
