

## Equipment for Examinations

We are just about to enter our busiest exam period. Students are hard at work revising for their exams and it is important that they come prepared for every exam. Therefore, we need to remind them what equipment they are required to bring.

Every student needs to come prepared with:

- A clear pencil case
- 2-3 black writing pens
- A pencil
- A ruler
- A rubber
- A pencil sharpener

In addition, for Maths exams, they will need:

- A scientific calculator
- A protractor
- A compass

For Geography and DT, coloured pencils would be useful as well.

All of these items are available in the School shop, most supermarkets or stationery retailer.

**It is the students' responsibility to provide the necessary equipment.**
